Hardstop Decorative Protection Panel by Formica

Health Product Declaration v2.1

created via: HPDC Online Builder

CLASSIFICATION: 06 05 13

PRODUCT DESCRIPTION: Formica® HardStop™ Decorative Protection Panels offer a worry-free solution for highperformance wall panels by blending ease of installation and premium impact resistance with a full range of design selections that coordinate perfectly with other Formica® laminates. Unlike traditional laminate that contains a paper core, HardStop™ features a fiberglass core for added durability and strength.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

MATERIAL | SUBSTANCE | RESIDUAL OR IMPURITY

GREENSCREEN SCORE | HAZARD TYPE

HARDSTOP DECORATIVE PROTECTION PANEL [ALUMINA TRIHYDRATE BM-2 | RES FORMALDEHYDE, MELAMINE POLYMER, METHYLATED LT-UNK PHENOL FORMALDEHYDE LT-P1 | RES CONTINUOUS FILAMENT GLASS FIBER, NON-RESPIRABLE LT-UNK CELLULOSE PULP NoGS]

Number of Greenscreen BM-4/BM3 contents ... 0

Contents highest concern GreenScreen Benchmark or List translator Score ... LT-P1

Nanomaterial ... No

INVENTORY AND SCREENING NOTES:

Hardstop ingredients are tightly controlled and incoming raw materials are QCed. It is tested for toatl VOC and Formaldehyde gas.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

VOC Content data is not applicable for this product category.

CERTIFICATIONS AND COMPLIANCE See Section 3 for additional listings.

VOC emissions: GreenGuard - Gold (previously Children & Schools)

CONSISTENCY WITH OTHER PROGRAMS

No pre-checks completed or disclosed.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.1, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-1-standard

HARDSTOP DECORATIVE PROTECTION PANEL

PRODUCT THRESHOLD: 100 ppm

RESIDUALS AND IMPURITIES CONSIDERED: Yes

RESIDUALS AND IMPURITIES NOTES: Raw materials are described by percentages. SDS for each material is obtained and an SDS was developed for the Harsdstop product. Product construction is adhered to a tight quality control standards. Typical residual gases can evolve as VOC as a formaldehyde thus product has been tested by UL environment and has passed Greenguard Gold standards for Wall Surface. In fact test results showed a BQL or Below Quantifiable Level

OTHER PRODUCT NOTES: Hardstop was tested for VOCs and Formaldehyde and meets Greenguard Gold

RESPIRATORY	AOEC - Asthmagens		A	sthmagen (Rs) - sensitizer-induced	
HAZARDS:	AGENCY(IES) WITH	WARNINGS:			
%: 60.0000 - 68.0000	GS: BM-2	RC: None	nano: No	ROLE: Filler and fire suppressant

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
