**FENIX®**

**FENIX NTM® Nanotech Matte Material**

FENIX® are the innovative materials for interior design. Applying proprietary technologies, the external surface of FENIX is characterized by the use of next generation acrylic resins, hardened and fixed through an Electron Beam Curing process. With low light reflectivity, FENIX surfaces are extremely opaque, soft touch and anti-fingerprint.

No special maintenance is required; just a damp cloth with warm water or a mild detergent. Almost all regular household cleaning products or disinfectants can be safely used.

Thermal healing of superficial micro-scratches is also possible.

---

**Formica Infiniti® Laminates Antimicrobial Surface Protection**

As beautiful as it is durable, Formica Infiniti® Laminate features a soft-to-the-touch super matte finish, resists fingerprints, has thermal healing capabilities and built-in antimicrobial surface protection. This technology stops the growth of mildew and mold, which can cause stains and odors.

**Formica® Solid Surfacing Seamless Nonporous Surfaces**

As tough as it is beautiful, Formica® Solid Surfacing shapes itself to virtually any design concept. The durable, non-porous surface is ideal for a work table or custom bar top, as well as sinks and shower surrounds.

Consider this collection on your next Healthcare, Education, Hospitality or Residential project.

**Formica® HardStop™ Decorative Wall Protection Panels**

HardStop™ Decorative Protection Panels by Formica Group offer an excellent solution for high-performance wall panels by blending ease of installation, easy-to-clean surface and impact resistance with a full range of design selections that coordinate perfectly with other Formica® laminates.

Unlike laminate that contains a paper core, HardStop™ Panels feature a treated fiberglass core for added durability, strength and Class A fire rating.

**EGR**

**Lustrolite® High Gloss Wall Panels by EGR Decor**

A stunning alternative to back painted glass. More versatile than glass, 50% lighter, machineable, non-porous and easy to maintain.

Lustrolite’s hygienic, non-stick surface will not harbor the build up of mould, bacteria, soap or calcium. Due to the large size of the panels grout usage is actually eliminated.
